

My name is Byron Parda Mijangos, I am 35 years old, I am a youth pastor, I practice triathlon, I am a professional in sports and I am a track and field, soccer, badminton and baseball coach.

I am blessed to be part of SI Guatemala leading the sports site since January of this year. I will be in charge of the sports area and the boys' club of the sponsorship area. With the sports site our mission is to see how students and youth from the communities are transformed by biblical principles using sports as a means of escape and recreation. It will be working through public schools, where children from 6 to 14 years old will be taught about baseball, athletics and badminton. Before any sports practice, biblical devotions will be held where the children will learn biblical values and principles. During the year there will be 2 sports festivals, one for baseball and the other for athletics, both festivals will be held in the municipal stadium of Magdalena.
